s-Pal

lean palletising

- ✓ your entry into palletising
- ✓ very competitive price
- ✓ palletise within 2 months
- ✓ save money from day one
- ✓ small footprint
- ✓ 3 variations
- ✓ 24/7 operational availability

s-Pal.

The s-Pal is a lean entry-level robotic palletiser designed for a quick and effortless start into automated palletising. Available in left-hand, right-hand, or dual infeed, with layer sheet table, and combined with specialised MOre software, the s-Pal is suited for day-to-day operations in the FMCG and CPG industries. The double endpoints and industrial FANUC robot offer the capacity of a larger palletiser, while prices start at only € 95,000.

Palletise within 2 months

The s-Pal is available in three predefined configurations for a fast quotation and ordering process. Delivery takes 6 to 8 weeks, installation just days. With detailed installation and commissioning guidelines, the s-Pal is designed for self-installation, lowering your investment and accelerating your ROI. Prefer a turnkey start? Our experienced installation team is ready to do it for you.

Never compromise on quality

The s-Pal is a lean palletiser, designed with only the features needed for efficient palletising. Lean, however, never means compromising on quality. The s-Pal meets the high CSi standard and comes equipped with the CSi MOre Software Suite, Machine Edition. Designed for easy and intuitive operation, it allows a single operator to run the s-Pal.

3 year warranty

With over 60 years of experience, we have a high quality standard. All our palletisers come with a standard 3 year warranty.

Capacity	Up to 8 picks/minute
